

Prestige R2 Pro

DTF Printer

High-resolution A3
printing with **balanced**
speed and vibrant color.

Print Beyond Limits.

Dual Epson i1600 printheads

Vivid color and sharp detail at 43.5 sq. ft. per hour, or 240 to 360 pieces on a normal production day.

Built-in sheet cutter

Trims film directly from the printer, so jobs come off ready to powder without a second station.

White ink that stays ready

White Ink Management System stirs white continuously. Passive cleaning every 4 hours, active cleaning mid job, and alerts before ink runs low.

Head strike and film sensors

The head strike sensor protects the printheads and the automatic film sensor keeps feeding consistent.

Desktop footprint

34" wide on standard 110V, so it fits a bench rather than a dedicated room.

Support & Warranty

- **Lifetime** DTF Station tech support
- **1-year warranty** on non-consumable parts
- **6-month warranty** on one printhead
- **neoStampa RIP** and DTF Station Pilot driver included

See it run. Contact your DTF Station **dealer** or visit dtfstation.com.

Dealer Locator

Compact Machine, Professional Output.

Built for the shop that is growing.

The R2 Pro is a compact DTF printer for shops moving into professional quality output. Dual Epson i1600 printheads deliver vivid color and sharp detail, and a built-in cutter trims film directly from the printer so jobs come off ready to powder.

Maintenance that runs itself.

Passive auto-cleaning refreshes the printheads every four hours and active auto-cleaning services them at set intervals even during a print job, which keeps a long run moving without hands-on upkeep.

An entry point that scales.

Pair it with a Miro 13 Max to complete the line, or run it alongside an existing finishing setup. neoStampa RIP and the DTF Station Pilot driver are included.

Support Every Step of the Way

Each machine comes with more than a warranty.
